Dear Parent or Guardian

We are pleased to share with you the fact we have now adopted a new science curriculum provided through Developing Experts. This platform provides pupils access to a fun, hands-on science curriculum which is delivered in the classroom.

Once the lesson is complete pupils can login outside of the classroom from any computer with an internet connection allowing pupils to revisit the narrated lessons and carry out a fun, 5-minute quiz to help reinforce the lesson content.

You can sign in to Developing Experts using the following details:

- Website: <http://www.developingexperts.com>
- Click 'Sign in' on the menu at the top.
- Enter the school's domain: moorlandscoe
- Click 'Pupil'
- Enter 'Pupil number' provided by the class teacher

This will take you into the pupil dashboard where pupils can view the lesson for the week, take a quiz to help reinforce lesson material and view previous lessons content and quiz results.

If you have questions about Developing Experts, please contact the school.

Thank you.

J Siddles  
Deputy Head
