

If you are able you should, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period

Further information on isolation is available here:

<https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance>

If your child is isolating due to developing symptoms themselves, or due the household isolation or being identified as a close contact please let us know as soon as possible in the same way you normally report absence. This will help us to take the right precautions at the setting.

If their test is negative they can return to school when they are well and the other household members can also return to their normal routine.

Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- **a high temperature** – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- **a loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

Do

- Follow the guidance on social distancing
- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information
