

Year A	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Reception	<p>Expressive Art and Design</p> <p>In the Revised Early Years Foundation Stage, EAD is broken down into two aspects:</p> <ul style="list-style-type: none"> • Exploring and Using Media and Materials • Being Imaginative <p>Art and design is covered through the continuous provision throughout the year – a breakdown of the skills progression can be found in the skills progression document.</p>					
Year 1/2	<p>Mix it (Year 1)</p> <p>Children learn about basic colour theory by studying the colour wheel and colour mixing. It includes an exploration of primary and secondary colours and how artists use colour in their artwork.</p> <p>(Artists Mondrian and Kandinsky)</p>	<p>Shelters</p> <p>This project teaches children about the purpose of shelters and their materials. They name and describe shelters and design and make shelter prototypes. Children then design and build a play den as a group and evaluate their completed product.</p>	<p>Rain & Sunrays</p> <p>Children learn about collagraph printing, including how to develop a motif to make single and repeated prints.</p>	<p>Taxi</p> <p>This project teaches children about wheels, axles and chassis and how they work together to make a vehicle move.</p>	<p>Street View</p> <p>Children learn about artwork depicting streets and buildings and focuses on the work of the American pop artist (James Rizzi).</p>	<p>Chop, Slice & Mash</p> <p>This project teaches children about sources of food and the preparatory skills of peeling, tearing, slicing, chopping, mashing and grating. They use this knowledge and techniques to design and make a supermarket sandwich according to</p>

						specific design criteria.
Year 3/4	Contrast & Compliment (Year 3) Children learn about colour mixing including tertiary colours, warm and cool colours, complementary colours and analogous colours, and how artists use colour in their artwork.	Cook well, Eat well This project teaches children about food groups and the Eatwell guide. They learn about methods of cooking and explore these by cooking potatoes and ratatouille. The children choose and make a taco filling according to specific design criteria.	Ammonite Children learn about artistic techniques used in sketching, printmaking and clay sculpture.	Making it move This project teaches children about cam mechanisms. They experiment with different shaped cams before designing, making and evaluating a child's automaton toy.	Beautiful Botanicals Children learn about the genre of botanical art. They create natural weavings, two-colour prints and beautiful and detailed botanical paintings of fruit. (Contemporary illustrator Katie Scott)	Greenhouses This project teaches children about the purpose, structure and design features of greenhouses, and compares the work of two significant greenhouse designers. They learn techniques to strengthen structures and use tools safely. They use their learning to design and construct a mini greenhouse.
Year 5/6	Tints, Tones & Shades (Year 5) Children learn about mixing tints, shades and	Moving Mechanisms This project teaches children about pneumatic	Line, Light & Shadow Children learn about the visual qualities of line, light and	Eat the seasons This project teaches children about the meaning and	Mixed Media Children learn about paper crafts, papermaking and	Architecture This project teaches children about how architectural

	tones. They learn about significant landscape artworks and features of landscape paintings.	systems. They experiment with pneumatics before designing, making and evaluating a pneumatic machine that performs a useful function.	shadow. They explore the work of Pablo Picasso and Rembrandt and are introduced to a range of shading techniques.	benefits of seasonal eating, including food preparation and cooking techniques.	collage techniques, including paper, fabric, mixed media and photo collage.	style and technology has developed over time and then use this knowledge to design a building with specific features.

Year B	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 1/2	Mix it (Year 2) 3 weeks This project teaches children about basic colour theory by studying the colour wheel and colour mixing. It includes an exploration of primary and secondary colours and how artists	Remarkable Recipes This project teaches children about sources of food and tools used for food preparation. They also discover why some foods are cooked and learn to read a simple recipe. The children choose and make a new	Flower Head This project teaches children about the visual elements of flowers, including shape, texture, colour, pattern and form. They also explore various artistic methods, including drawing, printmaking and	Beach Hut This project teaches children about making and strengthening structures, including different ways of joining materials.	Portraits This project teaches children about portraiture. They analyse the portraits of Tudor monarchs and compare Tudor portraits and selfies today. They use photo editing software to create royal portraits. Hans Holbein	Cut, Stitch & Join This project teaches children about fabric home products and the significant British brand Cath Kidston. They learn about sewing patterns and using a running stitch and embellishments

	<p>use colour in their artwork.</p> <p>Still life 3 weeks</p> <p>This project teaches children about the work of significant still life artists Cezanne, Van Gogh, Georges Braque and still life techniques. They explore a wide variety of still life and learn about the use of colour and composition. They create still life arrangements and artwork.</p>	<p>school meal that fulfils specific design criteria.</p>	<p>3-D forms, using paper and clay. Children are introduced to Japanese Artist Yayoi Kusama</p>			<p>before making a sewn bag tag.</p>
Year 3/4	<p>Contrast & Compliment (Year 4) 3 weeks</p> <p>This project teaches children about colour theory by studying the</p>	<p>Fresh food, Good food</p> <p>This project teaches children about processed food and healthy food choices. They make bread and</p>	<p>Vista</p> <p>This project teaches children about the techniques that artists use when composing landscape images,</p>	<p>Functional Fabrics</p> <p>This project teaches children about home furnishings and the significant designer William Morris. They</p>	<p>Islamic Art</p> <p>This project teaches children about the features of Islamic art. They make geometric patterns and</p>	<p>Tomb Builders</p> <p>This project teaches children about simple machines, including wheels, axles, inclined planes,</p>

	<p>colour wheel and colour mixing. It includes an exploration of tertiary colours, warm and cool colours, complementary colours and analogous colours, and how artists use colour in their artwork.</p> <p>Warp & Weft 3 weeks</p> <p>This project teaches children about the artform of weaving and how it has developed over time, including the materials and techniques required to create woven patterns and products.</p>	<p>pasta sauces and learn about the benefits of whole foods. They plan and make meals as part of a healthy daily menu, and evaluate their completed products.</p>	<p>such as colour and atmosphere. Children explore the work of landscape artist Jen Aranyi</p>	<p>learn techniques for decorating fabric, including block printing, hemming and embroidery and use them to design and make a fabric sample.</p>	<p>motifs on paper, with fabric and in clay. They use their learning to create a high relief clay tile, decorated with geometric patterns.</p>	<p>pulleys and levers, exploring how they helped ancient builders to lift and move heavy loads.</p>
--	--	---	---	--	--	---

<p>Year 5/6</p>	<p>Tints, Tones & Shades (Year 6) 3 weeks This project teaches children about colour theory by studying the colour wheel and exploring mixing tints, shades and tones. They learn about significant landscape artworks and features of landscapes before using this knowledge to create landscape paintings.</p> <p>Trailblazers 3 weeks This project teaches children about significant black artists and their work, and provides</p>	<p>Food for Life This project teaches children about processed food and healthy food choices. They make bread and pasta sauces and learn about the benefits of whole foods. They plan and make meals as part of a healthy daily menu, and evaluate their completed products.</p>	<p>Inuit This project teaches children about the Inuit way of life, including some of their cultural and artistic traditions.</p>	<p>Engineer This project teaches children about remarkable engineers and significant bridges, learning to identify features, such as beams, arches and trusses. They complete a bridge-building engineering challenge to create a bridge prototype.</p>	<p>Bees, Beetles & Butterflies This project teaches children about sketchbooks, observational drawing, mixed media collage and Pop Art. They consolidate their learning to make a final piece of artwork inspired by bees, beetles or butterflies. Children explore the work of pop artist Andy Warhol</p>	<p>Make, Do & Mend This project teaches children a range of simple sewing stitches, including ways of recycling and repurposing old clothes and materials.</p>
